

Project Demo Planning

Date	05 July 2026
Team ID	SWTID-2026-8308
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, problem statement, and team members.	2	Anusuri Ashadeepa
2	System Overview	Explain the system architecture, technologies used (Python, Flask, Machine Learning, HTML/CSS/JavaScript), and workflow.	3	Anusuri Ashadeepa
3	Feature Demonstration	Demonstrate crop prediction, soil analysis, weather-based recommendations, fertilizer suggestions, and yield optimization.	6	Anusuri Ashadeepa
4	Backend & Database	Show the backend processing, machine learning model, API integration, and database management.	3	Anusuri Ashadeepa
5	Frontend & User Interface	Demonstrate the user-friendly interface, data input forms, result pages, and responsive design.	3	Anusuri Ashadeepa

6	Results, Future Scope & Q&A	Present project outcomes, accuracy, future enhancements, conclusion, and answer questions.	3	Anusuri Ashadeepa
---	-----------------------------	--	---	-------------------

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project, explain the challenges faced by farmers, and describe the need for a smart agricultural optimization system.
2	Solution Overview	Explain the OptiCrop architecture, technologies used (Python, Flask, Machine Learning, HTML, CSS, JavaScript), and overall workflow.
3	Live Feature Demonstration	Demonstrate crop prediction, soil analysis, weather-based recommendations, fertilizer suggestions, and yield optimization using sample inputs.
4	Q&A Session	Summarize the project, discuss future enhancements, answer questions, and collect feedback from the audience.
